Trinidad
Venezuela Tonka bean of the kind called by Mr. Prestoe "Setapia" "These have been imported by us from Venezuela after years of enquiry and appear to be fresh and good. They do not appear to differ from the ordinary Tonka except in size". Extract from letter of Mr. J. H. Hart to Director, dated Trinidad 14.5.96.

Addendum to 67.1896. GMS

no.2 Landolphia florida Benth. (probably)
is one of the Landolphia spp
("Timini" "nofe")
To obtain the rubber the ~~material~~ the natives cut the vine into lengths of about 6 inches, thus destroying the plant. The milk is coagulated with lime juice. Rubber not so good as that of no. 1., and is of a dark colour.

C/o Miss Lockwood, 24 Woodville Road.

Ealing

Thanks also sent to The Hon. James Baker Provincial Secretary Victoria. B.C.

Totem Pole from Queen Charlotte Islands.

"It formed the front and only entrance to the house of Mr. Thomas Moody. It is made of Cedar (Thuja gigantea) and is about 20 years old. Its position with regard to the frame of the house is shown in photo No. 1 (see 40/1898) Between the eaves of the totem projected the end of the ridge pole which rested on the top of the totem helping to keep it in place. The pole was furthermore set about 4 ft in the ground but had very slight support from the building. It represents the crest of the late owners family an eagle over another animal species unknown".

Transferred to the British ~~Horniman~~ Museum, Feb. 1958.

Tobacco leaves
Two samples of Tea reported upon by Messrs. Wilson Smithett & Co. under date 22.12.98. 41 Mincing Lane as follows:- No. 1 better leaf & not quite so mixed as No. 2. would be worth 4¾ or 5d. per lb. in bond, No. 2 is an unassorted tea rather rough in leaf worth about 4½ or 4¾ per lb. They appear to have been dried rather than withered.
The above specimens were grown in the Shire Hds. at Mlanje. (Sent for Report)

22nd Messrs. Knowles & Foster 185.

2.

Two photographs of a Sago plantation at Pulau Kukub off W. coast of Johore :- These photos. show (1) the plantation and trees felled and partly cut up and a coolie rolling a section of the stem to the factory [No 128]. (2) Man rolling up the section, men in the shed rubbing it down with the instrument I sent you. Bark as cut off in piles and lying loose about the ground. to the left coolie pouring water into the washing mat arranged on sticks over the stream - a washing tub in which the Sago is allowed to settle, being rewashed, and by the shed a quantity of white Sago laid out to dry. (Pars. taken from Mr Ridley's letter accompanying photos.)

22.

A collection of samples of Gum Copal from Batjan, Moluccas

Nos 1-4. Samples of soft gummi

" 5-12. " " hard do.

and one sample in the natural state

The soft gummi is collected by means of cuttings in the trees and the hard stuff by digging under the trees, by preference old dead trees, as this sort is found in the roots and gets hard under the ground. The original colour is light yellow brown and the older it gets the darker the colour. The native name of Gummi Copal is "Damar radjah" and consists of two sorts "Damar poeteh" (soft gummi) and "Damar merah" (hard gummi). These samples were received as the produce of a "Kanari" tree probably Canarium bengalense. This is apparently incorrect as the Damar tree of Batjan is described in "The Malay Archipelago" Wallace Vol. II. p. 60 as being a species of Dammara.

Botanic Garden, Entebbe (Sir H. H. Johnston)

Sent to [illegible]

Two boxes containing Rubber in small balls virtually of the same quality as that of the small sample recd. Feb. 19th. 1901 & reported upon by Messrs. Hecht Levis & Kahn. This rubber is composed of the juices of:— (a) "Species of Strophanthus growing abundantly in the Garden & neighbouring forest" yielding rubber latex in large quantities (This is described by Dr. Stapf as a species of Alafia none of which are known to yield rubber).

(b.) "We have also two species of Landolphia" (L. florida according to Stapf) This is nearly always mixed with other rubber

(c.) Another Apocyneæ with an apple like fruit (Tabernæmontana sp. according to Stapf.) This milk is most likely mixed with the others in forming the balls.

" 7th. Dr. M. T. Masters — 67.

Three photographs of the Herbarium & Museum in the Botanic Garden, Sydney & two views in the Botanic Garden, Brisbane.

4 Mincing Lane E.C.

17 Feb 1905.

We have carefully examined the sample coca leaves from the Botanic Gardens, Gold Coast, Aburi, and find them to be of a similar character to one of the qualities grown in Ceylon but which are very poor in contents of Cocaine & not much liked by druggists. If sent as green as the sample would be worth 5d to 6d per lb. We send you a sample of the leaves we usually receive from Ceylon which you will see are quite a different character, and much liked by manufacturers. The value for good green leaves is 10d to 1/- per lb and sometimes as much as 1/2 per lb. (Sample not kept. J.M.H.)

ENTRY No. 114.1907

ROYAL BOTANIC GARDENS, KEW

WOOD SPECIMENS FROM THE KENYA HIGHLANDS

Memorandum ~~TO~~ Following correspondence with Dr. R. Polhill RBG, Kew & Dr J. Gillett & Mr [illegible] Kayu of the E. African Herbarium in Nov. 1976, woods were identified from vernacular name only, where possible. Woods marked * not identified satisfactorily

DATE 21/12/76

Duplicate of list from Jan Gillett at East African Herbarium
Page nos. refer to Dale & Greenway "Kenya trees & shrubs"

* 1. Kesac believed not Kikuyu

2. Moanda = Mwanda = Muenda (Kik.) p. 251
Muxia congesta Fres.

3. Mochiagasa = Muchagasa (Kik.) p. 484 (*Fagara macrophylla*)
Zanthoxylum gilletii (DeWild.) Waterm.

4. Mochiogi = Muchogi (Kik.) p. 238 *Apodytes dimidiata* Arn.

5. Mosri = Moiria = Mweria (Kik.) p. 406 *Prunus africana* (Hook.f.) Kalkm.

* 6. Moguno ? – Mugumo (Kik.) p. 319 & 321 *Ficus natalensis* and *F. thonningii*

* 7. Moigaigwa this word means thorny in Kikuyu see Megaigua (Kik.) p. 45
Carissa edulis but this is too small to produce timber

* 8. Mohote = Muhuti (Kik) p. 364 *Erythrina abyssinica* DC. or perhaps
Muhutu (Kamba) p. 151 *Terminalia brownii* Fres.

9. Moikoni (Kik.) p. 242 *Ocotea kenyensis*

10. Moirozi or Moirothi ≡ Muirosi (Kik.) p. 172
Diospyros abyssinica (Hiern) F. White

11. Mokorabosi ≡ Mukorombosi (Kik.) p. 170 *Afrocrania volkensii* (Harms) Hutch.

* 12. Mokso Mr. Kayu thinks this may apply to Syzigium p. 335 but ? =
Mogushwe (Kik.) p. 285 *Acacia brevispica* Harms but this is not a timber tree.

13. Mona = Muna (Kik.) p. 521 *Aningeria adolfi-friederici*

14. Monunga = Mununga (Kik.) p. 267 *Ekebergia capensis*

* 15. Moremno ? = Murema (Kik.) p. 145 *Combretum molle*

16. Moringa = Muringa (Kik.) p. 69 *Cordia africana* Lam.
(*C. abyssinica*)

17. Mosigisa = Musigiza (Kik.) *Lepidotrichilia volkensii* see no. 22

18. Motasi = mutasi (Kik.) p. 481 *Clausena anisata* (Willd.) Benth.

19. Motorosua = Mutoroswa (Kik.) p. 385
Faurea saligna Harv. (Mutorothua is better)

20. Mozaiti – Muzaiti (Kik.) p. 243 *Ocotea usambarensis* Engl.

21. Marandara ? = Murendera (Kik.) p. 233 *Trichocladus ellipticus*
ssp. malosanus

22. Muchamo (Kik.) p. 271 *Lepidotrichulia volkensii* (Guerke) Leroy

ROYAL BOTANIC GARDENS, KEW

Memorandum TO

Duplicate of list from Jan Gillett at East African Herbarium DATE 21/10/76
Page nos refer to Dale & Greenway - "Kenya trees & shrubs"

* 23. Mucharage ? = Musharagi (Kik.) p . 346, 348 349 Olea hochstetteri Bak., O. welwitschii & Linociera battiscombei

* 24. Muerere = Mwerere (Kik.) p. 46 Tabernaemontana holstii K. Sch. or p. 48 Rauvolfia caffra Sond.

25. Mugaiti = Mugaita (Kik.) p. 332 Myrsine africana L. but this is too small a plant to provide timber Rapanea rhododendroides (Gilg) Mez is also Mugaita and must be the plant

26. Mundonye = Mondonye (Kik.) p. 330 Maesa lanceolata Forsk.

27. Mungarima (Kik.) p. 337, 338, 340 Ochna spp.

28. Munyava + Munyawa (Kik.) 233 Garcinia volkensii Engl.

29. Munyenye (Mogregne) (Kik.) p. 193 Drypetes gerrardii Hutch.

30. Musaizi (Kik.) p. 398 Cassipourea malosana (Bak.) Alston

31. Musamara = Musumura (Kik.) p. 50 Ilex mitis (L.) Radlk.

32. Musengera (Kik.) p. 398 Cassipourea malosana (Bak.) Alston

32. Musengera (Kik.) p. 5 & 7 Podocarpus spp.

33. Mutati (Kik.) p. 55 Polyscias Kikuyuensis Summerh.

* 34. Mutundu (Kik.) p. 191 Croton macrostachyus Del. p. 210 Neobolltonia macrocalyx Pax

* 35. Rorrio possibly = Loriem (Samburu) p. 346 Olea africana Mill.

36. Ruazi = Ruasi (Kik.) p. 432 Canthium schimperanum and p. 429, 432 2 other Canthium spp.

* 37. Segeta?

* 38. Mukyan (Moken) Mr. Kayu says this is Mukenya (Kik.) p. 587 Lantana trifolia L. but that is not big enought to make a timber specimen

39. Mukurve = Mukurue (Kik.) p. 299 & 300 Albizia spp.

40. Mukoriango = Mukuriaungu (Kik.) p. 267 Ekebergia capensis Sparrm. see no. 14

41. Mukomakoma (Kik.) p. 444 (Psychotria megistosticta (S. Moore) Petit) P. mahonii C.H. Wright

Woods marked * not identified satisfactorily.

ROYAL BOTANIC GARDENS, KEW

Memorandum TO

DATE

42. Mukahokuho = Mukohokuho (Kik.) p. 306 *Xymalos manospora* (Harv.) Baill.

43. Mukuhakuha (a) (Kik.) p. 208 *Macaranga kilimandscharica* Pax

44. Mukuhakuha (b) (Kik.) p. 208 *M. ruwenzorica* Pax

Lt. Col. Kenneth MacKenzie 10a – 1922
4 Clifford Road,
Bexhill-on-Sea, Sussex
(Letter 65. 1922 : XIV p. 208)

Piece of oak from Spanish Armada galleon sunk in 1589 in Tobermory Harbour, Isle of Mull.
(More information with specimen)

"An examination of the specimen does not make it possible to determine where the timber was grown. Italy is suggested, on the strength of a slight apparent probability that the wood may be Quercus conferta Kit. A better sample, if it happened to consist of a more quickly grown timber, would be more favourable for identification, but it does not appear likely that the question could be solved". L. A. Boodle 20. 2. 1922.

Destroyed May 1957.

Mr Dallimore.

I have cut pieces for sectioning from these specimens, so they ~~are~~ can now be cut to any size you like for keeping.

I have selected 20 pieces of English wood to send to Mr. Tang in exchange, and Mungay has packed them. I have sent a covering letter on the lines you suggested saying that we have no reliable material from S. Asia at present available for distribution.

C.R.M.

21/3/33

Herewith also 2 wood specimens from Prince Risborough.
